FREE 2D Weapons Pack

==

Thank you for downloading the Stylized 2D Weapons Pack

This pack includes a little of what you need to start building a stylized Ninja game, knife/fruit throwing game, Arcade and casual action games using Unity engine.

🎁 CONTENT OVERVIEW

- 3 Categories of Weapons:

• 2 Hero-themed Knives

• 1 Ninja-style Weapons

• 2 School-themed Throwables

All files are PNG format with transparent backgrounds, ready to use.

⚙ HOW TO USE

----

1. If you are a unity user, Import the PNG files into your Unity project (Assets > Import New Asset).

2. Use Unity's Sprite Editor if you want to slice or adjust pivots.

3. Backgrounds are designed for full-screen layers in mobile resolutions and pc.

You are free to:

- Use this asset in commercial and non-commercial projects.

- Include the assets in released games, applications, or prototypes.

📜 LICENSE

- No attribution required.

- Free for personal and commercial use.

- You can use the assets as you wish.

🔊 THIRD-PARTY NOTICE

All assets in this package were **created from scratch** by the author.

No third-party assets, trademarks, copyrighted content, or external resources were used.

This ensures full legal safety when using these assets in commercial products.
